- Zero Focus Shift under IR illumination
- 56 IR LEDs (125' range)
- High Resolution (480TVL color/420TVL b/w)
- Waterproof (IP68 rating)

Description

The waterproof SMS 5356IR is a high resolution dual CCD long range infrared (IR) camera with an 8mm lens. It is designed for medium to long-range use indoors or outdoors where video is required at low or even zero illumination levels as well as at normal daylight or artificial light illumination. This camera provides 480TV lines of high resolution video in colour at normal light levels and switches to a black and white CCD under low light conditions providing zero focus shift and a useable IR range of up to 125' with its 56 IR LEDs. An internal fan automatically turns on when under IR illumination to reduce the temperature of the IR LEDs, greatly improving their longevity and performance.
